TALK OF ELECTION

SOME WISH TO HOLD TOWNSHIP BOND ISSUE ELECTION.

COUNTY ISSUE BETTER

Good Roads Bond Issue for Township Not as Good—Only Allowed \$100 for Bridges and Culverts.

Two or three townships over the county have been talking of having a township bond issue election for the purpose of good roads and bridges. However, no action has been taken by any of them, waiting to see what the county court will do about the proposed \$200,000 bond issue for bridges and to hold the election, but the sentiment of the people is wanted in regard to whether it will carry. The court does not feel like spending \$1,000 for an election if the proposition is to be defeated. The reason the court feels this way is, at the present time all of the county funds are short, there being not enough money to run the county until the first of the year, when this year's taxes will come in. They don't want to spend any more than what is absolutely necessary.

The county bond issue is about the only way that the bridges of the county will ever be put in good condition. Not much bridge work will be done next year as the county fund at present is \$20,000 behind, and it will take nearly all that is coming in from this year's taxes to make up the deficit. Then the county fund is not sufficient to build the many bridges that are needed, and if a bond issue is not had then the bridges will be in the same shape as they are for some years to come.

The townships that are talking of good roads bond issues are Hughes, Monroe, Jefferson, Jackson and Independence. As stated above, nothing definite has been done in regard to the proposition in these townships.

The township good roads bond issue is not as good a proposition as a county issue, according to several road men. One reason for this is the fact that they can only spend \$100 for bridges and culverts in the township. The following is the section of the law in regard to this same:

"The county court shall sell said bonds to the best advantage and the proceeds shall be paid over to the county or township treasurer as the case may be, and be by him disbursed on the order of the county court in payment of the cost of holding said election and in paying the costs of roads in such township, including bridges and culverts costing not over \$100 each. (Laws 1911, p. 367.)"

John M. Evans returned Monday from his trip to Chattanooga, Tenn.

Skidmore Agreed to Spend Money on Road, But Will Not Do So Until Their Road is O. K.

Skidmore, when they were after the county seat road from Maryville to Rock Port by the way of that town and Fairfax, agreed to raise and spend some money on the bottom road out of Skidmore to Fairfax. They raised \$500 and the work was intended to start next week. The money was subscribed on the condition that this road would be selected as a county seat road. The county highway commission selected this route, but now Skidmore wants the O. K. of the state highway engineer before they will go ahead with the work.

It is thought here that State Highway Engineer Buffum will inspect the roads here in the next few weeks. That he is to make many changes is very evident from what he told the county commission on his visit here last week. The mileage has to be shortened. He is very much opposed to railroad crossings, and he is going to change these roads over railroads as far as practicable.

WORDS OF PRAISE TO BE A SUCCESS

REV. C. J. MILLER IN FAREWELL TALK SPOKE HIGHLY OF NORMAL.

INFLUENCE FOR GOOD

The Conscientious Teachers and Moral Tone of Town Aids Students—Dr. C. K. Dyer Give Short Talk.

Rev. C. J. Miller of the First Christian church, who is to leave for Greeley, Col., in a few days, led the devotional exercises at the Normal school this morning, and also took occasion to say a few words of farewell to the faculty and student body.

Rev. Miller said that he had always had a deep interest in the school, and that he believed that it was one of the finest institutions in the state for students of Normal school age.

"The Normal school," said Rev. Miller, "should be the stepping stone to the last years of the university work. Situated as it is in a town of good moral tone, and presided over by teachers whom I know to be conscientious in their work, it should exert over each student an influence which will be of lasting good."

Rev. Miller introduced Dr. Charles K. Dyer, the Armenian lecturer, who made a short talk to the students on "The School System of Turkey."

Some of the school conditions in Turkey as described by Dr. Dyer would scarcely appeal to the ordinary American youth. The school hours are from 6 o'clock in the morning until 5 o'clock in the evening.

"The boys and girls go in separate classes," said Dr. Dyer, "maybe because they don't like each other over there as well as the American boys and girls seem to. All students, whether in the first grade or in the university classes, are whipped once each week, receiving one lash for each year of their life."

Four subjects are tabooed there, namely, geography, history, natural philosophy and civil government, "because," the authorities say, "they are of a revolutionary character."

The student generally takes from six to eight languages, first because there it is almost necessary for a well educated person to speak several languages, and second because the eastern tongues are more easily learned than the western. For instance, the Russian, Armenian, Bulgarian and Turkish languages have but from four to seven thousand words each, while the English language contains one hundred and twenty-five thousand words.

Dr. Dyer says that there is no country in the world where the boys and girls have the opportunity that they do in the United States. But two requirements for advancement are needed and they are character and education.

Dr. Dyer ended with an appeal to the students to respect and uphold the great country which is their heritage, and above all to look to the Great Giver from whom all good gifts come.

Dr. Dyer will give a short address to the high school at 8:40 o'clock Thursday morning. In the evening at 8 o'clock he will give a talk in the First Christian church, the lecture being under the auspices of the Christian Endeavor.

One Obstacle to Happiness.

"No," declared the young man with a touch of sadness in his voice, "it may be that some day I shall be happy, but at present it is beyond me."

His companions were interested. "There is a girl I love dearly," he continued. "She would have me if I asked her, but I dare not. I really cannot live on \$10,000 a year."

Consternation and pity were depicted on the faces of his friends.

"You can't marry on \$10,000 a year?" asked one. "Why not?"

"Why not?" echoed the youth. "Simply because I haven't the \$10,000!"—Post-Dispatch.

"SYRUP OF FIGS" FOR CONSTIPATED CHILD

Delicious "Fruit Laxative" Can't Harm Tender Little Stomach, Liver and Bowels.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "Fruit Laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup company."—Advertisement.

The Mission Circle Sale.

A mistake was made Monday in giving notice of the meeting of the Young Ladies' Mission Circle of the First Christian church when plans were made for the October rummage sale. But we all know that was a plain mistake on the face of it, for there is but one Young Ladies' Mission Circle in Maryville and that it belongs to the First Christian church. So there.

Tourists Present German Graduate.

The tourists of the Twentieth Century club held an open meeting Tuesday afternoon at the home of Mrs. G. H. Colbert. The ladies were received by Miss Mae Orear, the new chairman of the department, and Mrs. Colbert, the hostess, who presented Miss Louella Read of Shenandoah, the speaker of the afternoon, and Mrs. A. W. Murphy of Shenandoah, who was the club's guest. The program was opened by the singing of two beautiful songs by Mrs. Ferdinand Townsend. Mrs. E. G. Orear then presented Miss Read, who has traveled extensively in Europe, Egypt and Asia Minor. Miss Read said that of all the countries she had visited she liked Germany the best. She is a graduate of the University of Berlin, receiving her degree of doctor of philosophy two years ago. She chose for her subject for the afternoon "German Student Life." The audience was given a rare treat, as the speaker took them into German student life and presented to them the German student at work and at play. The impressive ceremonies attending the opening of the university school year, the dignified and scholarly professors, the wonderful libraries, the famous duels among the students, which correspond to American hazing, the gay fete nights, were among the subjects discussed. Miss Read's manner is simple and full of charm. She talks direct from the heart. Throughout the hour she held the closest attention of her hearers. The tourists and their guests were enthusiastic over her address and many ladies expressed a desire to have her return and address the entire club at some future day. Tea was served during the social hour after the address. Mrs. Beal Roseberry presided in the dining room and was assisted by Mrs. Ferdinand Townsend, Mrs. S. G. Gilliam and Miss Jessie Parcher. Sunflowers and salvia were prettily used for adornment.

Town's Copyright Name.

In order that the name "Tulsa" cannot be used as a trade mark outside the city and cannot be taken as a name by another town in or outside of this country, the city commission will copyright the name, taking out both a national and international patent.

There is now but one Tulsa in all the world. The only other place in the world which comes anywhere near resembling Tulsa is the name Tula, a village in Russia. Friends of Tulsa believe the name should be preserved intact. The city attorneys will draft an ordinance providing for a copyright of the name, whereupon application will be made to the patent office at Washington.

Tulsa is a Creek Indian word, meaning frontier. It was carried first by the Tulsa clan of Creek Indians, whose headquarters were in this locality. To commemorate this clan of Indians, which has been prominent in tribal affairs since the Creeks were first given a constitutional form of government in 1828, the name was applied to Tulsa by its founder, J. H. Hall, when he staked out the townsite in 1897. Chief Tulsa of the Tulsa band of Indians is buried a few miles outside the city, and there is now a movement on hand to erect a shaft to his memory, either in one of the city parks or on a downtown corner.

TALK OF ELECTION

SOME WISH TO HOLD TOWNSHIP BOND ISSUE ELECTION.

COUNTY ISSUE BETTER

Good Roads Bond Issue for Township Not as Good—Only Allowed \$100 for Bridges and Culverts.

Two or three townships over the county have been talking of having a township bond issue election for the purpose of good roads and bridges. However, no action has been taken by any of them, waiting to see what the county court will do about the proposed \$200,000 bond issue for bridges and to hold the election, but the sentiment of the people is wanted in regard to whether it will carry. The court does not feel like spending \$1,000 for an election if the proposition is to be defeated. The reason the court feels this way is, at the present time all of the county funds are short, there being not enough money to run the county until the first of the year, when this year's taxes will come in. They don't want to spend any more than what is absolutely necessary.

The county bond issue is about the only way that the bridges of the county will ever be put in good condition. Not much bridge work will be done next year as the county fund at present is \$20,000 behind, and it will take nearly all that is coming in from this year's taxes to make up the deficit. Then the county fund is not sufficient to build the many bridges that are needed, and if a bond issue is not had then the bridges will be in the same shape as they are for some years to come.

The townships that are talking of good roads bond issues are Hughes, Monroe, Jefferson, Jackson and Independence. As stated above, nothing definite has been done in regard to the proposition in these townships.

The township good roads bond issue is not as good a proposition as a county issue, according to several road men. One reason for this is the fact that they can only spend \$100 for bridges and culverts in the township. The following is the section of the law in regard to this same:

"The county court shall sell said bonds to the best advantage and the proceeds shall be paid over to the county or township treasurer as the case may be, and be by him disbursed on the order of the county court in payment of the cost of holding said election and in paying the costs of roads in such township, including bridges and culverts costing not over \$100 each. (Laws 1911, p. 367.)"

Skidmore Agreed to Spend Money on Road, But Will Not Do So Until Their Road is O. K.

Skidmore, when they were after the county seat road from Maryville to Rock Port by the way of that town and Fairfax, agreed to raise and spend some money on the bottom road out of Skidmore to Fairfax. They raised \$500 and the work was intended to start next week. The money was subscribed on the condition that this road would be selected as a county seat road. The county highway commission selected this route, but now Skidmore wants the O. K. of the state highway engineer before they will go ahead with the work.

It is thought here that State Highway Engineer Buffum will inspect the roads here in the next few weeks. That he is to make many changes is very evident from what he told the county commission on his visit here last week. The mileage has to be shortened. He is very much opposed to railroad crossings, and he is going to change these roads over railroads as far as practicable.

WORDS OF PRAISE TO BE A SUCCESS

REV. C. J. MILLER IN FAREWELL TALK SPOKE HIGHLY OF NORMAL.

INFLUENCE FOR GOOD

The Conscientious Teachers and Moral Tone of Town Aids Students—Dr. C. K. Dyer Give Short Talk.

Rev. C. J. Miller of the First Christian church, who is to leave for Greeley, Col., in a few days, led the devotional exercises at the Normal school this morning, and also took occasion to say a few words of farewell to the faculty and student body.

Rev. Miller said that he had always had a deep interest in the school, and that he believed that it was one of the finest institutions in the state for students of Normal school age.

"The Normal school," said Rev. Miller, "should be the stepping stone to the last years of the university work. Situated as it is in a town of good moral tone, and presided over by teachers whom I know to be conscientious in their work, it should exert over each student an influence which will be of lasting good."

Rev. Miller introduced Dr. Charles K. Dyer, the Armenian lecturer, who made a short talk to the students on "The School System of Turkey."

Some of the school conditions in Turkey as described by Dr. Dyer would scarcely appeal to the ordinary American youth. The school hours are from 6 o'clock in the morning until 5 o'clock in the evening.

"The boys and girls go in separate classes," said Dr. Dyer, "maybe because they don't like each other over there as well as the American boys and girls seem to. All students, whether in the first grade or in the university classes, are whipped once each week, receiving one lash for each year of their life."

Four subjects are tabooed there, namely, geography, history, natural philosophy and civil government, "because," the authorities say, "they are of a revolutionary character."

The student generally takes from six to eight languages, first because there it is almost necessary for a well educated person to speak several languages, and second because the eastern tongues are more easily learned than the western. For instance, the Russian, Armenian, Bulgarian and Turkish languages have but from four to seven thousand words each, while the English language contains one hundred and twenty-five thousand words.

Dr. Dyer said that there is no country in the world where the boys and girls have the opportunity that they do in the United States. But two requirements for advancement are needed and they are character and education.

Dr. Dyer ended with an appeal to the students to respect and uphold the great country which is their heritage, and above all to look to the Great Giver from whom all good gifts come. Dr. Dyer will give a short address to the high school at 8:40 o'clock Thursday morning. In the evening at 8 o'clock he will give a talk in the First Christian church, the lecture being under the auspices of the Christian Endeavor.

UP AGAINST MOTHER NATURE

Modern Demand for Large Armaments as Well as Babies She Considers Unreasonable.

The falling birth rate continues to excite the patriotic apprehensions of Europe. In France the scare is a perpetual one. It has recently made its appearance in Germany, and now we have a wall from England that there are fewer children than ever before. Minds that are unobstructed by this particular brand of patriotism are likely to congratulate themselves on the fact of a waning population in countries that are obviously and notoriously overstocked. But the delusion that progress may be measured by population is widely spread. It springs from militarism. Its origin is the prevailing conviction among the ruling classes that the chief aim and object of national life is to fight, and that there can be no greater misfortune than a lack of soldiers. Actually it is militarism and armaments that produce the low birth rate. These are the very things that take the values from life and that produce the level of poverty that makes a new baby a calamity. If France, and Germany, and England, were so to rearrange themselves that babies might have a reasonable expectation of a comfortable life there would be no lack of babies to take advantage of such hospitality. But to demand armaments and babies is one of those unreasonable wishes that nature never grants.—San Francisco Argonaut.

BETTER THAN ANY MEDICINE

Just a Few Well-Chosen Words and Ailing Singer Was Restored to Vigorous Health.

"I am sorry to learn you are so ill that you cannot possibly be in your accustomed place tomorrow morning," Miss Hysee, said the minister's wife, condolingly, "and I have hurried over to say you need not feel the slightest uneasiness about the solo you were to sing in the opening anthem. Dr. Goodman and the organist have arranged that Miss Gony shall take the part, and—"

"What?"

The popular soprano of the Rev. Dr. Goodman's church choir at once sat bolt upright in bed.

"What?" she screamed. "That old maid with the cracked voice try to sing my solo? Never!"

With one hand she tore the bandages off her head; with the other she swept the medicines from the little table to the floor, and then she kicked down the coverlets.

"Tell Dr. Goodman and the organist," she said, in a tone that rang through the house like the silvery tones of a bell, "to notify Miss Gony that she needn't mangle that solo. I'll be there!"

"I thought that would do it," said the minister's wife, quietly, to herself.

Worrying About Things Beforehand.

We have learned to live wisely only when we have learned to put out minds exactly on the present task and the present minute and think of the thing to be done the next minute. It may be that at this moment you are worrying about something that you have to do a few hours or days hence. Let the event, when it comes, take care of itself.

Do not sap your strength to meet it by worrying beforehand. The character that you admire in another is the character that faces the future calmly, without nervousness, without apprehension, without fuss or flutter. A woman who was about to be taken in an ambulance to a hospital for a serious operation was singularly calm. Her best friend praised her for her remarkable self-possession. "My dear," said the sufferer, "I have learned to have my troubles but once, and that is when they arrive."

If we could only learn that lesson!

Modern Salome.

Queen Victoria, who was very fond of step dancing, one night at Balmoral asked her maid, who she knew had been taking lessons of an eminent dancing mistress, for a little exhibition of her art. Princess Henry of Battenberg, chief musician on the piano, at her mother's court struck up a tune on the piano, and Miss Lambert forthwith began her dance. The queen, delighted, asked her at its close to name something she would like for a reward. Now the maid of honor was conservative in the extreme. "I should like," she said, "the head of Mr. Labouchere on a charger."

Special Demonstration and Sale GREAT MAJESTIC RANGES

ONE WEEK
ONLY

Monday, Sept. 22, to Saturday, Sept. 27

ONE WEEK
ONLY

SAVE \$8.00

As a special inducement during our demonstration week only, with every MAJESTIC RANGE sold (price always the same) we will give free one handsome set of ware as illustrated here.

Every piece of this ware is the best of its kind. Not a piece that is not needed in every kitchen. It cannot possibly be bought for less than \$8.00. This ware is on exhibition at our store. DON'T FAIL TO SEE IT.

WHICH SHALL IT BE?

Do you intend to continue laboring, burning valuable fuel and destroying high-priced food with that old worn-out cook stove?

You KNOW that old stove eats up a lot of fuel each year.

You KNOW you have trouble in getting it to bake just right, in fact, spoil a batch of bread every once in a while—you know it costs considerable for yearly repairs.

Stop and think and figure. Wouldn't it pay you to buy a good range—a range with a reputation—

The Great Majestic MALLEABLE AND CHARCOAL IRON Range

You make no mistake in buying the GREAT MAJESTIC—it's the range with THE REPUTATION—ask your neighbors. Then, too, it's made just right and of the right kind of material—MALLEABLE AND CHARCOAL IRON—riveted together practically air tight—lined with pure asbestos board—parts being malleable can't break—has a movable reservoir and an oven that don't warp—that's why the MAJESTIC uses so little fuel, bakes just right every day in the year (browns bread just right all over without turning), heats 15 gallons of water while breakfast is cooking—properly handled lasts a lifetime, and costs practically nothing for repairs.

Don't buy the range you expect to last a lifetime "unsight unseen;" you'll be sure to be disappointed. Come to our store during demonstration week, see the GREAT MAJESTIC—have its many exclusive features explained—find out why the MAJESTIC is 300 per cent stronger than other ranges where most ranges are weakest.

Come, If You Intend to Buy or Not

EDUCATION lies in KNOWING THINGS—KNOW why the oven of a range is heated—KNOW how the water is heated—HOW the top is heated—WHY the MAJESTIC uses so little fuel—KNOW how a range is made inside and outside. This education may serve you in the future. DON'T OVERLOOK a chance to KNOW THINGS shown by one who knows. COME.

DON'T OVERLOOK THE DATE. THIS IS A SPECIAL INVITATION TO YOU AND YOUR FRIENDS AND NEIGHBORS

FREAKY FOODS AND DIETS.

U. S. Department of Agriculture Says Ordinary Food is Best for People.

Beware of freak diets and of fakers calling themselves food experts; eat what you want when you feel like it, giving attention to cleanliness and to wholesome cooking.

This is the official advice of the department of agriculture in a warning to the public, issued as a result of an investigation just finished by government specialists into the operations of self-styled "experts in dietetics."

"Some of the advocates of freak diets are sincere, but are themselves deluded," says the warning. "Others are fakers who seek to make monetary gain by advising peculiar systems of diet. Neither class can offer trustworthy advice."

"In most of the commendations of these self-established 'experts' there is hardly a shadow of reason, though they may seem plausible. One of their methods of reasoning is to use isolated and often related facts of science as evidence that their peculiar system is of value. They completely ignore statements in current and scientific literature which could negative their contentions."

"Much of the supposed scientific advice now being sold for a price is really little more than folklore. A great many of the statements which are used as arguments have been traced by the government specialists and found to come from works on diet written so long ago as to be no longer considered of value except to the student of the history of dietetics."

The department's statement discusses "the fallacy of enzymes and

particular chemical matter," declaring that the ordinary wholesome American diet furnishes the body with what is needed to sustain it and the food for whole grain cereals and like, is useless. Raw food that is clean and free from contamination is all right if anybody wants to eat it, the specialists say.

"The truth of the matter is, however," adds the statement, "that man's chances of health are best when he eats with moderation a diet made up of clean, wholesome, ordinary foods, well prepared in the usual ways."

"If the deductions of many food fadists accepted as facts were really operative, it would be difficult to explain how the human race had survived."

The department adds a warning against the danger of alleged mail cures sold by "diet experts."

One Obstacle to Happiness.

"No," declared the young man with a touch of sadness in his voice, "it may be that some day I shall be happy, but at present it is beyond me."

His companions were interested. "There is a girl I love dearly," he continued. "She would have me if I asked her, but I dare not. I really cannot live on \$10,000 a year."

Consternation and pity were depicted on the faces of his friends.

"You can't marry on \$10,000 a year?" asked one. "Why not?"

"Why not?" echoed the youth. "Simply because I haven't the \$10,000!"—Post-Dispatch.

"SYRUP OF FIGS" FOR CONSTIPATED CHILD

Delicious "Fruit Laxative" Can't Harm Tender Little Stomach, Liver and Bowels.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup company."—Advertisement.

A dainty lunch was served by the hostess during the social hour to those present. The next meeting will be in two weeks with Mrs. Claud Moore.

Observed Anniversary.

Mrs. Louis Zahn entertained the members of the Royal Neighbors at her home Saturday afternoon in observance of her first wedding anniversary. The afternoon was spent in games and guessing contests and telling riddles. Those who succeeded in giving the most humorous riddles were rewarded by assisting the hostess in serving the luncheon, consisting of sandwiches, pickles, olives and coffee. They were Mrs. Ed T. Dale and Mrs. Del Thompson. Each guest presented the hostess a picture in a wooden frame. At the close of the social time a new club was organized which will meet socially every other Tuesday at the home of its members. It will be known as the M. T. club, the name to be kept secret. Mrs. Harry Shipp was chosen president. Mrs. Del Thompson, vice president, and Mrs. Henry Thorp, secretary-treasurer. Tourists Present German Graduate.

The tourists of the Twentieth Century club held an open meeting Tuesday afternoon at the home of Mrs. G. H. Colbert. The ladies were received by Miss Mae Orear, the new chairman of the department, and Mrs. Colbert, the hostess, who presented Miss Louella Read of Shenandoah, the speaker of the afternoon, and Mrs. A. W. Murphy of Shenandoah, who was the club's guest. The program was opened by the singing of two beautiful songs by Mrs. Ferdinand Townsend. Mrs. E. G. Orear then presented Miss Read, who has traveled extensively in Europe, Egypt and Asia Minor. Miss Read said that of all the countries she had visited she liked Germany the best. She is a graduate of the University of Berlin, receiving her degree of doctor of philosophy two years ago. She chose for her subject for the afternoon "German Student Life." The audience was given a rare treat, as the speaker took them into German student life and presented to them the German student at work and at play. The impressive ceremonies attending the opening of the university school year, the dignified and scholarly professors, the wonderful libraries, the German student in the class room, the famous duels among the students, which correspond to American hazing, the gay fete nights, were among the subjects discussed. Miss Read's manner is simple and full of charm. She talks direct from the heart. Throughout the hour she held the closest attention of her hearers. The tourists and their guests were enthusiastic over her address and many ladies expressed a desire to have her return and address the entire club at some future day. Tea was served during the social hour after the address. Mrs. Real Roseberry presided in the dining room and was assisted by Mrs. Ferdinand Townsend, Mrs. S. G. Gillam and Miss Jessie Parcher. Sunflowers and salvia were prettily used for adornment.

Town's Copyright Name.

In order that the name "Tulsa" cannot be used as a trade mark outside the city and cannot be taken as a name by another town in or outside of this country, the city attorneys will copyright the name, taking out both a national and international patent.

There is now but one Tulsa in all the world. The only other place in the world which comes anywhere near resembling Tulsa is the name Tula, a village in Russia. Friends of Tulsa believe the name should be preserved intact. The city attorneys will draft an ordinance providing for a copyright of the name, whereupon application will be made to the patent office at Washington.

Tulsa is a Creek Indian word, meaning frontier. It was carried first by the Tulsa clan of Creek Indians, whose headquarters were in this locality. To commemorate this clan of Indians, which has been prominent in tribal affairs since the Creeks were first given a constitutional form of government in 1833, the name was applied to Tulsa by its founder, J. H. Hall, when he staked out the townsite in 1897. Chief Tulsa of the Tulsa band of Indians is buried a few miles outside the city, and there is now a movement on hand to erect a shaft to his memory, either in one of the city parks or on a downtown corner.

"A Brother's Loyalty" tells the story of fraternal, constancy, devotion and sacrifice that quivers with human appeal from start to finish. MARYVILLE, MISSOURI, FRIDAY, OCT. 24, 1913.

NO. 123.

MRS. HAWKINS DIES

SHE PASSED AWAY AT 5 O'CLOCK FRIDAY MORNING.

A LINGERING ILLNESS

Funeral Arrangements Will Not Be Made Until Return of Son, Winfred, From Columbia.

After months of intense suffering from a physical condition that baffled the knowledge and skill of physicians, Mrs. C. A. Hawkins passed away Friday morning at 5 o'clock at the home of her parents, Mr. and Mrs. Clark Andrews, 122 West Edward street.

Mrs. Hawkins was the wife of Professor C. A. Hawkins of the Northwest Normal faculty.

The funeral arrangements will not be completed until the arrival of Mrs. Hawkins' son, Winfred Hawkins, a post-graduate student at the state university at Columbia. It is expected, however, that the services will be held Sunday afternoon from the First Baptist church, conducted by the pastor, Rev. Louis M. Hale.

Mrs. Hawkins' illness began a year and a half ago, while she was in Columbia with her sons, who were in school there. She did not think her failing strength was of a serious nature, and did not seek medical aid until she returned to her home in Maryville for the summer vacation. It seems that she had waited too long to receive any permanent benefit from treatment, and although she tried to be ready to return to Columbia with her sons the following September, she was unable to do so, and took up her home with her parents, where every attention possible has been given her by her husband, parents, nurses and physicians.

In September she was taken to Dr. Hermann Pearce's sanitarium in Kansas City for treatment, but after a week or so she was pronounced incurable and was brought home again. She regained considerable strength after her return and much hope for her recovery was entertained by her family and friends. She became so well that she sent for several old friends to visit her, and the enjoyment of the visits was mutual, for she seemed entirely herself again, eager to be in her own home, "by Christmas time, sure," she said, "in time for Winfred's holiday visit at home, for we will have to begin housekeeping all over again, just like we did when we were married, and we are going to have such a nice time." Not long ago her strength began failing rapidly and death was expected when it came.

A few days ago Mrs. Hawkins asked her nurse to leave her a little while and tell her mother to come to her. What the two talked about there alone is too sacred to be told here. But among the things the daughter said was that she was glad that since she could not live longer to enjoy her family, when her boys were becoming more and more a joy and satisfaction to her, and she could not longer be the help to her husband she wished to be, she was glad she could die in the home of her parents; the home she first knew anything about, and in the very room where she had taken her marriage vows. She referred to many happy occasions in the old home, and after she had accustomed her mother to the thought of what she was bringing to her mind she told her she had the text selected for her funeral sermon. And these are the words: "She hath done what she could." And those who knew Mrs. Hawkins will know with her that she lived her life to the full measure of its duties and responsibilities. It was not in a spirit of pride that she gave the text for her funeral sermon, but with the honest conviction that she had done all she could. And it is true. For she had presented her body a living sacrifice in her home, in the church of her faith, and, let it be reverently added, it was "holy, acceptable unto God." Not a talent was buried or folded away. Every power she possessed was in constant use or burnished and ready when needed.

She had the education of her oldest son in her care until he was ready for the high school and she continued to be of assistance to him until he graduated from high school and then went with him to Columbia and made a home for both her boys for three years, one attending the state university and the other the high school. She enjoyed her residence at Columbia and was active in church work there as in her home town, and it was a keen disappointment to her that she could not return for her son's senior year, and especially at commencement

time, when she wished to be present for his graduation. Her letters to him would be fit for publication in the best literary works of the day.

Eva Louisa Andrews was born on a farm near Albert Lea, Minn., January 22, 1868. She was the only daughter of Clark and Eva Louisa (Pitcher) Andrews. When she was a year and a half old her parents came to Maryville and settled on a farm three miles north of Maryville, where they lived three years. They then came to Maryville and have lived in their residence at 122 West Edward street since. Eva was converted at the age of 12 years and baptized into the fellowship of the First Baptist church by Rev. H. J. LaTour. She grew into a lovely Christian womanhood and was in favor with everyone, young and old. She attended the public schools for a few years and then entered the M. S. Embree academy of Maryville and was made ready for the last two years' course in the high school. When she finished the high school course she began teaching in our schools and had the fourth grade five years.

She was married June 22, 1891, to Charles A. Hawkins, who is now head of the department of Latin of the Northwest Normal. They went to Hopkins to make their home, where Mr. Hawkins was superintendent of the schools, and after two years came to Maryville, where Mr. Hawkins was principal of our high school two years and superintendent fifteen years.

Two sons were born to them, Winfred Weeden Hawkins, now 21 years old, who is specializing in German at the state university, and John Ruskin Hawkins, 15 years old, a Maryville high school student.

From her girlhood Mrs. Hawkins was a leader in the work of her church, especially the social and educational work. She was organist from the time she was 15 years old until her marriage; a successful Sunday school teacher and in special mission study work with children; president of the Woman's Missionary society, and for the first twelve years was superintendent of the home department of the Sunday school, giving up that work when she went to Columbia. For several years she had the care of over eighty students in the home department work and visited them. Her bright, cheerful manner won for her a lasting place in the hearts of all with whom she came in contact and her death will be truly mourned.

Beside her husband, sons and parents, she leaves four brothers, Edward L. Andrews of this city, of the firm of Andrews & Hempstead; Ernest J. Andrews of Shenandoah, Ia.; Arthur A. Andrews of Conway Springs, Kan., and Harley Andrews of Pasadena, Cal.

THE W. R. C. BANQUET.

Given Thursday Evening in the K. P. Hall—Was a Very Enjoyable Affair.

One of the guests present at the W. R. C. banquet Thursday evening has written the following for this paper: The banquet given Thursday evening by the W. R. C. at the K. P. hall was a very pleasant affair and thoroughly enjoyed by all present. The object of the banquet was three fold. First, a token of respect for the members of Sedgwick post, No. 21, G. A. R., in whose interest largely the W. R. C. was organized. Second, in honor of Mrs. Catherine Miller and Mrs. Gus DeLana. Mrs. Miller leaves today for California to be gone during the winter and Mrs. DeLana leaves in a few days for Oklahoma. The third object was to offer the members of Sedgwick post an opportunity to become honorary members of the W. R. C. One feature of special mention was the excellent music, both instrumental and vocal. "Long Live the W. R. C." is the devout wish of the "old boys."

FOR IMPROVEMENT

MANY SUGGESTIONS MADE AT COMMERCIAL CLUB BANQUET.

TO MOVE HITCHRACKS

Plan Offered by J. H. Sewell—Banquet a Great Success—Much Interest Taken in Speeches.

At the Commercial club banquet held Thursday evening at the Ream hotel, a suggestion was offered to provide a better place to move the hitchracks and to take the same from around the court house square. The suggestion was well received by more than the 100 banqueters present and was offered by John H. Sewell.

Mr. Sewell also advocated that the court house fence should be taken down, as both the fence and the hitchracks were an eyesore to the city. His plan is to provide hitchracks for the farmers in a much better place than around the square.

Maryville will probably have an incineration plant for the purpose of burning the refuse, trash and other rubbish that is collected around town and are now dumped around places in the city. The proposition was advanced by J. F. Hull, when the question of a dumping place for all such trash and rubbish was brought up by Mose Hahn, a member of the city council. Mr. Hahn said that at present all such stuff is dumped in a ravine north of Maryville, and that during the rainy weather the water from this creek runs into the 102 river above the city water plant, making the water bad. Everyone of the many diners was strongly of the opinion that the city should have such an incineration plant, where everything is burned, and the Commercial club and the city administration will make efforts to have such a plant here.

These suggestions and many others for the welfare of the city were advanced by the speakers of the evening. Ernest Wray, who is a farmer living near Maryville, said that there should be 100 farmers or more members of the Commercial club, and told of the mutual relations between the club and the farmers, and how much benefit it would be for both of them.

Mayor A. S. Robey spoke of the city administration and the Commercial club, and urged that there should be co-operation. He spoke of the many things that the city administration had been able to accomplish by the work of the club. Of one thing mentioned by him was that of the recent telephone merger. He said at first that the city administration was not strongly for the merger, but when a petition containing 90 per cent of the telephone users was presented to the council, that board at once gave their consent to the merger. Mayor Robey also added that the merger had proved to be just the right thing, and that there has been no complaint offered since it was done.

The finances of the Commercial club was spoken of by George L. Wilfley, and money was raised at the dinner for the purpose of paying the secretary's salary of \$100 a month. Enough money was secured so that the club can have a paid secretary for the coming year.

In raising the money for the paid secretary, a proposition was made which carried unanimously that the city give the club \$10 a month out of the general revenue fund to apply for that official. The matter will be taken up before the council by a committee from the Commercial club.

Other speakers were Rev. Robert L. Finch of Kansas City, Kan.; Henry Wray, W. O. Garrett, W. H. Gilbert.

The banquet was a great success and there was a great deal of interest taken in what each speaker had to say and especially the many good suggestions offered. Music during the serving of the dinner was by Maulding's orchestra, and it was excellent music. E. C. Curfman presided as toastmaster.

SECURE EDUCATION

HON. WM. J. BRYAN STATES IMPORTANCE OF LEARNING.

NEVER MISS A LESSON

Parents Should Keep Children in School—It is a Blessing If Used Rightly.

Every student in the schools of Maryville should read the following signed article by Hon. William J. Bryan on the "Importance of an Education."

"A school census showing the number of boys and girls at study is a guaranty as to the nation's future. The course of instruction, beginning with the kindergarten and ending with the university, is intended to cover about sixteen years of the life of each generation—it seems a long time when one looks forward to it, but it passes quickly and happily. There is no way in which these years can be better employed; no amount of money that can be made during the years covered by the school course can be as valuable to the individual as the information collected and the training secured. The interest paid by a bank, the dividends earned on stock and the profits accruing from other investments are small compared with the returns which an education yields. Money is only valuable because it will buy other things and there are some things which money cannot buy. Dollars will not bring to the untutored mind a solace for wasted opportunities.

"One of the advantages of age is that it can assume the right to give advice; let me use the presumption and offer a word of counsel. To the younger students, the most valuable thought that can be presented is that each lesson is important. We can find an illustration in the brick. A single brick is about as useless a thing as can be imagined, but a large number of bricks, properly laid together make a wall, and the walls joined make a house. If a brick is missing from the wall there is a hole and if many are missing, the holes are so numerous that the wall becomes impassable, and yet the lessons properly joined together form an education, and an education is of the highest value. If we could look upon an education as we can upon a wall, we would see the hole caused by a lesson missed. We cannot do this, but we do know that when many lessons are missed the education is defective. 'Never miss a lesson' should be the motto during the earlier years until study has become a pleasure and then admonition is unnecessary.

"The greatest danger that the intermediate student has to encounter is that of leaving school before the course is completed. Society ought to be able to rely upon the parent to keep the child in school, and yet there are parents who seem to be ignorant of the value of education. Would any parent think of cutting off a boy's arm to compete with boys who have two arms? Such a thing could not be thought of—it would be too cruel to be described by words. And yet in this age the father who deliberately deprives his son of the opportunity to secure an education to compete with the boys who are well educated is more cruel than the father who would cut off his boy's arm.

"But let us suppose that the student has passed through the first and last stages, has been careful to attend every recitation and has completed the entire course, what then? Is that all? by no means.

"An education is a means to an end, not an end in itself. Whether the education will contribute toward the happiness of the individual and toward his usefulness to the community depends entirely upon his life's purpose. Just as the railway engine or the automobile can be of great use when properly guided but can do tremendous harm when not controlled so the education may be helpful or harmful according to the use made of it. Here again resort may be had to an illustration. The buzzard and the bee may be taken as representing two views of life. The buzzard soars high but never gets so high but that it is looking for something to eat; when it dies it leaves nothing to make its existence remembered. The bee, on the other hand, has an instinct for sweetness it knows where the honey is. It feeds upon the best while it lives and when it dies it leaves a monument of honey to make the world glad that it has lived. The buzzard must be a buzzard, and we cannot blame it for it; the bee must be a bee and deserves no credit for it; but man is free to choose which he

will imitate; the buzzard or the bee. Some imitate one and some the other. There are those who, however high they go, are always looking for something to eat, something to wear, something for themselves; when such a one dies the world is not grieved. There are others who produce more than they consume and when they die leave the world richer than when they found it.

"To those who make the right use of education it is a blessing without alloy. It makes one a fit companion for himself and enlarges his capacity for service. As one cannot rightfully draw from society a larger sum than that which fairly measures the service which he renders an education is valuable to its possessor because, by increasing the contribution which he can make to society it increases the reward that he can legitimately draw from society. In a larger sense, an education rightly used is of priceless value; it enables its possessor to better meet the responsibilities of life, better discharge the duties imposed by society and better fulfill the destiny that his Creator has set before him.

HOG RAISING PAYS

SUBURBS OF MARYVILLE A GOOD PLACE TO RAISE THEM.

USED PURE BRED STOCK

Mr. Geo. Hulet Sold Nineteen for \$338.58, Making Net Profit of \$170.63.

Hog raising in the suburbs of Maryville is a profitable business, according to John E. Cameron of the Normal agricultural department. Prof. Cameron, in speaking of it to a representative of this paper, said:

Mr. George Hulet sold on the local market last week two litters of pigs, nineteen in number, for \$338.58. They were but 7 months and 3 days old. During that time a careful account was kept of the entire expense of feed. The pigs had the run of a bluegrass pasture, which is not included in the following cost:

2,000 pounds of shorts, \$34.50.
140 bushels corn, at 36 cents, \$50.56.
60 bushels wheat, at 78 cents, \$46.80.
Grinding wheat, a little stock food and tankage, \$8.15.
Total cost, \$167.55.

The corn was shelled, soaked in water from one feed to the next. The shorts and ground wheat was fed in the same way. No milk was fed during the time. One the above ratios two of the pigs weighed 290 pounds each, and the nineteen averaged 224 pounds, making a net profit to the owner of \$170.63 in seven months and three days, or nearly \$25 per month. The cost of the feed also included the keeping of the mother brood sows during the time.

"Now the reasons for the rapid growth and good profits obtained, are due largely to two things.

"First, well selected pure bred pedigreed sire and dams as the ancestors of the pigs.

"Second, they were fed during the time a well balanced pig ration. A ration that would produce growth as well as fat.

"How many of the farmers would think of purchasing a ton of shorts and getting 60 bushels of their wheat ground to feed to nineteen pigs and two brood sows? Does he know that corn and blue grass does not furnish a balanced ration for pigs? Corn produces fat and not much growth.

"Is it not true that pigs are often kept in a blue grass pasture or in a dry feed lot and fed on corn for a long period of time and when the farmer figures up the amount of 63 cent corn fed, the profits are very small, indeed? When the grower of pigs learns that clover, alfalfa, cowpeas, soy beans or winter vetch will largely take the place of ground wheat and shorts, and grows these for his pigs, then his profits may be even greater than those in this case of the seventeen pigs.

Notice also that his profit was made from pure bred stock. Mr. Hulet would not think of feeding for the market any other kind of stock.

"Should a majority of the farmers decide to use only pure bred sires for his pigs next year, and grow some leguminous crops, as clover, alfalfa or cowpeas to feed along with his corn. Whatever is done, see to it that a ration is fed that will produce both growth and fat in the shortest possible time. Then the profits from hog raising will be materially increased."

UP AGAINST MOTHER NATURE

Modern Demand for Large Armaments as Well as Babies She Considers Unreasonable.

The falling birth rate continues to excite the patriotic apprehensions of Europe. In France the scare is a perpetual one. It has recently made its appearance in Germany, and now we have a wall from England that there are fewer children than ever before. Minds that are unobstructed by this particular brand of patriotism are likely to congratulate themselves on the fact of a waning population in countries that are obviously and notoriously overstocked. But the delusion that progress may be measured by population is widely spread. It springs from militarism. Its origin is the prevailing conviction among the ruling classes that the chief aim and object of national life is to fight, and that there can be no greater misfortune than a lack of soldiers. Actually it is militarism and armaments that produce the low birth rate. These are the very things that take the values from life and that produce the level of poverty that makes a new baby a calamity. If France, and Germany, and England, were so to rearrange themselves that babies might have a reasonable expectation of a comfortable life there would be no lack of babies to take advantage of such hospitality. But to demand armaments and babies is one of those unreasonable wishes that nature never grants.—San Francisco Argonaut.

BETTER THAN ANY MEDICINE

Just a Few Well-Chosen Words and All-Ing Singer Was Restored to Vigorous Health.

"I am sorry to learn you are so ill that you cannot possibly be in your accustomed place tomorrow morning. Miss Hysee," said the minister's wife, condolingly, "and I have hurried over to say you need not feel the slightest uneasiness about the solo you were to sing in the opening anthem. Dr. Goodman and the organist have arranged that Miss Gony shall take the part, and—"

The popular soprano of the Rev. Dr. Goodman's church choir at once sat bolt upright in bed.

"What?" she screamed. "That old maid with the cracked voice try to sing my solo? Never!"

With one hand she tore the bandages off her head; with the other she swept the medicines from the little table to the floor, and then she kicked down the coverlets.

"Tell Dr. Goodman and the organist," she said, in a tone that rang through the house like the silvery tones of a bell, "to notify Miss Gony that she needn't mangle that solo. I'll be there!"

"I thought that would do it," said the minister's wife, quietly, to herself.

Worrying About Things Beforehand.

We have learned to live wisely only when we have learned to put out minds exactly on the present task and the present minute and think of the thing to be done the next minute. It may be that at this moment you are worrying about something that you have to do a few hours or days hence. Let the event, when it comes, take care of itself.

Do not sap your strength to meet it by worrying beforehand. The character that you admire in another is the character that faces the future calmly, without nervousness, without apprehension, without fuss or flutter. A woman who was about to be taken in an ambulance to a hospital for a serious operation was singularly calm. Her best friend praised her for her remarkable self-possession. "My dear," said the sufferer, "I have learned to have my troubles but once, and that is when they arrive."

If we could only learn that lesson!

Modern Salome.

Queen Victoria, who was very fond of step dancing, one night at Ballmoral asked her maid, who she knew had been taking lessons of an eminent dancing mistress, for a little exhibition of her art. Princess Henry of Battenberg, chief musician on the piano, at her mother's court struck up a tune on the piano, and Miss Lambart forthwith began her dance. The queen, delighted, asked her at its close to name something she would like for a reward. Now the maid of honor was conservative in the extreme. "I should like," she said, "the head of Mr. Labouchere on a charger."

MR. WILSON CALLS FOR PRAYER.

The President's First Thanksgiving Proclamation Issued Today.

President Wilson issued his first Thanksgiving proclamation yesterday, as follows:

The season is at hand in which it has been our long respected custom, as a people, to turn in praise and thanksgiving to Almighty God for his manifold mercies and blessings to us as a nation.

The year that has just passed has been marked in a peculiar degree by manifestations of his gracious and beneficent providence. We have not only had peace throughout our own borders and with the nations of the world, but that peace has been brightened by constantly multiplying evidence of genuine friendship, of mutual sympathy and understanding and of the happy operation of many elevating influences both of ideal and of practice.

The nation has been not only prosperous, but has proved its capacity to take calm counsel amid the rapid movement of affairs and deal with its own life in a spirit of candor, righteousness and comity.

We have seen the practical completion of a great work at the isthmus of Panama, which not only expedites the nation's abundant resources to accomplish what it will and the distinguished skill and capacity of its public servants, but also promises the beginning of a new age, of new contrasts, bonds and new achievements of co-operation and peace.

"Righteousness exalteth the nation," and "Peace on earth, good will toward men," furnish the only foundation upon which can be built the lasting achievements of the human spirit. The year has brought us the satisfactions of work well done and fresh visions of our duty which will make the work of the future better still.

Now, therefore, I, Woodrow Wilson, president of the United States of America, do hereby designate Thursday, the 27th of November, next, as a day of thanksgiving and prayer, and invite the people throughout the land to cease from their wonted occupations and in their several homes and places of worship render thanks to Almighty God.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington, this 23d day of October, in the year of our Lord, 1913, and of the Independence of the United States of America the 138th.

(Signed) WOODROW WILSON,
By the president.

Suggests Name of "Sweet Sixteen."

A Hopkins young man, in a note to the social department of The Democrat-Forum, suggests a name for the new club of girls just formed, that hasn't a name yet. He says, "Tell them to call it Sweet Sixteen club," as that is the number of the charter members. The names of the members of the new club were given in Tuesday's daily, and they sounded wonderfully like those of the Sigma Delta Chi sorority girls.

DIAZ TAKES REFUGE IN U. S. CONSULATE

Escorted From Residence by
Lind and Other Americans.

Vera Cruz, Mex., Oct. 24.—General Felix Diaz left the residence of his mother-in-law, where he has been staying, escorted by President Wilson's personal representative, John Lind, the American consul, W. W. Canada, and his secretary, two American residents and a few friends.

It is believed that he is on his way to the American consulate to take refuge there. General Diaz first went to the German hotel, which is separated from the American consulate by a wall.

The military authorities have been notified that a special train has been made ready for General Diaz, and have issued orders to the federal soldiers to surround the block. General Diaz, it is stated, will be arrested if he leaves the consulate, the federal officers believing that he has gone direct there.

WILSON WILL NOT TALK

President Declines to Discuss British and Mexican Situation.

Washington, Oct. 24.—At his usual semi-weekly conference with the newspaper correspondents President Wilson, for the first time, declined to discuss foreign relations and asked to be excused from speaking of the attitude of Great Britain or any other phase of the Mexican situation.

The president's departure from his custom of speaking frankly on international affairs was regarded as deeply significant regarding the situation caused by the actions of Sir Lionel Carden, British minister to Mexico, and Great Britain's attitude toward the Mexican situation generally.

The disposition of all officials here to maintain absolute silence with regard to the inquiries by Ambassador Page at London indicated that the whole affair will be handled in the quiet realm of diplomacy. There was confidence that further and more intimate discussion of details would result in a friendly understanding.

RESCUED FROM NIAGARA

Detroit Man in Motor Boat Caught in Whirlpool.

Niagara Falls, Oct. 24.—Peter W. Langeard of Detroit was rescued after having been four hours in the grasp of the whirlpool below Niagara falls in a small motorboat.

Langeard made the trip through the whirlpool rapids from the Maid of the Mist landing, on the Canadian side, to the whirlpool to furnish a subject for a moving picture film.

Driftwood clogged the propeller of his boat and he was powerless to bring the craft out of the vortex. Fred Preston swam out with a life line and the boat was finally drawn ashore.

Bellis Breaks Down at His Hearing. Kiev, Russia, Oct. 24.—The strain of his hearing is beginning to tell upon Mendel Bellis, on trial charged with the murder of the Christian boy, Yushinsky, in March, 1911. He suddenly broke down, buried his head in his hands and sobbed aloud. The evidence given was not such as to cause him alarm.

Woman and Daughter Murdered.

Devil's Lake, N. D., Oct. 24.—Mrs. B. T. Dillon and her twelve-year-old daughter, Luella Marshall, of Ray, N. D., are dead and Mr. Dillon, husband, will die, the bodies of all three being riddled with bullets from a revolver in the hands of Maurice Culbertson, a former husband of Mrs. Dillon, who has since been captured.

SICK, SOUR STOMACH, INDIGESTION OR GAS

Take "Pape's Diapepsin" and in Five Minutes You'll Wonder What Became of Misery in Stomach.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.—Advertisement.

ONE WEEK
ONLY

SAVE \$8.00

As a special inducement during our demonstration week only, with every MAJESTIC RANGE sold (price always the same) we will give free one handsome set of ware as illustrated here.

Every piece of this ware is the best of its kind. Not a piece that is not needed in every kitchen. It cannot possibly be bought for less than \$8.00. This ware is on exhibition at our store. DON'T FAIL TO SEE IT.

WHICH SHALL IT BE?

Do you intend to continue laboring, burning valuable fuel and destroying high-priced food with that old worn-out cook stove?

You KNOW that old stove eats up a lot of fuel each year.

You KNOW you have trouble in getting it to bake just right, in fact, spoil a batch of bread every once in a while—you know it costs considerable for yearly repairs.

Stop and think and figure. Wouldn't it pay you to buy a good range—a range with a reputation—

The Great Majestic Malleable and Charcoal Range

You make no mistake in buying the GREAT MAJESTIC—it's the range with THE REPUTATION—ask your neighbors. Then, too, it's made just right and of the right kind of material—MALLEABLE AND CHARCOAL IRON—riveted together practically air tight—lined with pure asbestos board—parts being malleable can't break—has a movable reservoir and an oven that don't warp—that's why the MAJESTIC uses so little fuel, bakes just right every day in the year (breads bread just right all over without turning), heats 15 gallons of water while breakfast is cooking—properly handled lasts a lifetime, and costs practically nothing for repairs.

Don't buy the range you expect to last a lifetime "unsight unseen;" you'll be sure to be disappointed. Come to our store during demonstration week, see the GREAT MAJESTIC—have its many exclusive features explained—find out why the MAJESTIC is 300 per cent stronger than other ranges where most ranges are weakest.

FREAKY FOODS AND DIETS.

U. S. Department of Agriculture Says Ordinary Food is Best for People.

Beware of freak diets and of fakers calling themselves food experts; eat what you want when you feel like it, giving attention to cleanliness and to wholesome cooking.

This is the official advice of the department of agriculture in a warning to the public, issued as a result of an investigation just finished by government specialists into the operations of self-styled "experts in dietetics."

"Some of the advocates of freak diets are sincere, but are themselves deluded," says the warning. "Others are fakers who seek to make money by gain by advising peculiar systems of diet. Neither class can offer trustworthy advice."

"In most of the commendations of these self-established 'experts' there is hardly a shadow of reason, though they may seem plausible. One of their methods of reasoning is to use isolated and often related facts of science as evidence that their peculiar system is of value. They completely ignore statements in current and scientific literature which could negative their contentions."

"Much of the supposed scientific advice now being sold for a price is really little more than folklore. A great many of the statements which are used as arguments have been traced by the government specialists and found to come from works on diet written so long ago as to be no longer considered of value except to the student of the history of dietetics."

The department's statement discusses "the fallacy of enzymes and

particular chemical matter," declaring that the ordinary wholesome American diet furnishes the body with what is needed to sustain it and the fad for whole grain cereals and like, is useless. Raw food that is clean and free from contamination is all right if anybody wants to eat it, the specialists say.

"The truth of the matter is, however," adds the statement, "that man's chances of health are best when he eats with moderation a diet made up of clean, wholesome, ordinary foods, well prepared in the usual ways."

"If the deductions of many food fadists accepted as facts were really operative, it would be difficult to explain how the human race had survived."

The department adds a warning against the danger of alleged mail cures sold by "diet experts."

FAVORS GOVERNMENT BANK

Vanderlip Evolves Substitute for Currency Measure.

Washington, Oct. 24.—A government controlled and operated central bank, to dominate the financial system of the country, entered the legislative arena as a rival of the administration regional reserve currency plan. Frank A. Vanderlip, president of the National City bank of New York, explained the new plan to the senate banking and currency committee. He had evolved the new scheme as a result of conferences with members of the committee whom he said had expressed approval of such a plan.

Under his proposal the government, through a board of seven members, would establish a huge bank, with \$100,000,000 capital, which would control financial conditions by powers conferred on it to issue money, to rediscount commercial paper for banks and to concentrate the reserve gold of the country.

Miss Leishman Will Marry Duke.
Paris, Oct. 24.—Mrs. Leishman, wife of the former American ambassador to Germany, and her daughter, Miss Nancy Leishman, left here for Geneva, Switzerland, and were followed by Mr. Leishman. The wedding of Miss Leishman and the Duke of Croix will take place in the Geneva cathedral Tuesday.

Seaman's Bill Passes Senate.
Washington, Oct. 24.—The LaFollette substitute for the "Seaman's servitude" bill, so amended as not to affect the treaty relations of the United States until the president has been given an opportunity to readjust them, passed the senate.

Want Road Changed in Monroe.
John G. Hays has filed a petition requesting the county court to discontinue a certain road in Monroe township, and in lieu thereof to make out a new road which will be of greater benefit to the traveling public. The court will consider the matter at their November meeting.

To Have Long Distance Line.
Elmo is at last to have a long distance telephone line into that town, a contract having been signed with the Bell telephone system to build a line to that town and to connect with the Mutual central there. It certainly has been needed at Elmo for some time.

An Appropriate Name for Hotel.
The following is what the Missouri Notes editor of the Kansas City Times says:
"It is hard to think of a more appropriate name for a hostelry than the one by which a Maryville inn is called. It is the Ream. And 'reaming' the guests is the best thing most hotels do."

First Number of Lecture Course.
The first number of the Graham lecture course will be given this evening at the M. E. church in Graham. It is the Ethel Lee Buxton Concert company.

Visiting in Kansas City.
Miss Cecile Benight went to Kansas City Friday evening to spend the week end with relatives.

MOTHER! IF CHILD'S TONGUE IS COATED

If Cross, Feverish, Constipated, Bilious, Stomach Sour, Give "California Syrup of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleaning" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup company." Don't be fooled!—Advertisement.

To Play Hopkins Friday.

The basket ball team of the Maryville high school will play the Hopkins team at Hopkins on Friday afternoon. This will be the first game for Maryville.

WHY 7,000 DRUGGISTS

Guarantee and Recommend Vinol.
If any one should know the value of a medicine it is the retail druggist who sells it.

Therefore, when over seven thousand of the best retail druggists in the country recommend Vinol, our delicious cod liver and iron tonic, without oil, as the greatest tonic, reconstructer and strength creator they have ever sold, it must indicate the value of Vinol.

We could publish columns of such testimony as the following:

J. C. Brady, druggist of Fall River, Mass., says: "In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure."

C. A. Potterfield, druggist, of Charleston, W. Va., says: "It is a pleasure to sell Vinol as it gives such universal satisfaction."

Hunter & McGee, druggists, of Jackson, Miss., say: "We have great confidence in the strength creating and curative value of Vinol."

We ask every run-down, nervous, debilitated, aged or weak person or any person suffering from chronic coughs, colds or bronchitis, to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim.—The Orear Henry Drug Co., Maryville, Mo.—Advertisement.
